

# PVC mat with N/A and N/C output for contact sensor

## Manuale e specifiche tecniche

---

Thank you for choosing the PVC mat with N/A and N/C output for N/A and N/C contact sensor. Connected to a contact sensor, the mat detects the presence of a person or weight on the surface in which it is placed and communicates with the MyVirtuoso Home system.

## Description and Technical Specifications

---

The PVC mat with N/A and N/C output is a device designed to indicate the presence of a person on the installed surface. Connected to an N/A and N/C contact sensor, it communicates data to the MyVirtuoso Home gateway or any other gateway that supports the Z-Wave protocol.

### Technical Specifications

**Code:** 01335-5000-00

**Dimensions:** 3800 (L) \* 7600 (A) \* 3,2 (P)

### Package Contents

- PVC mat with N/A and N/C output for contact sensor
- User manual

### Installation

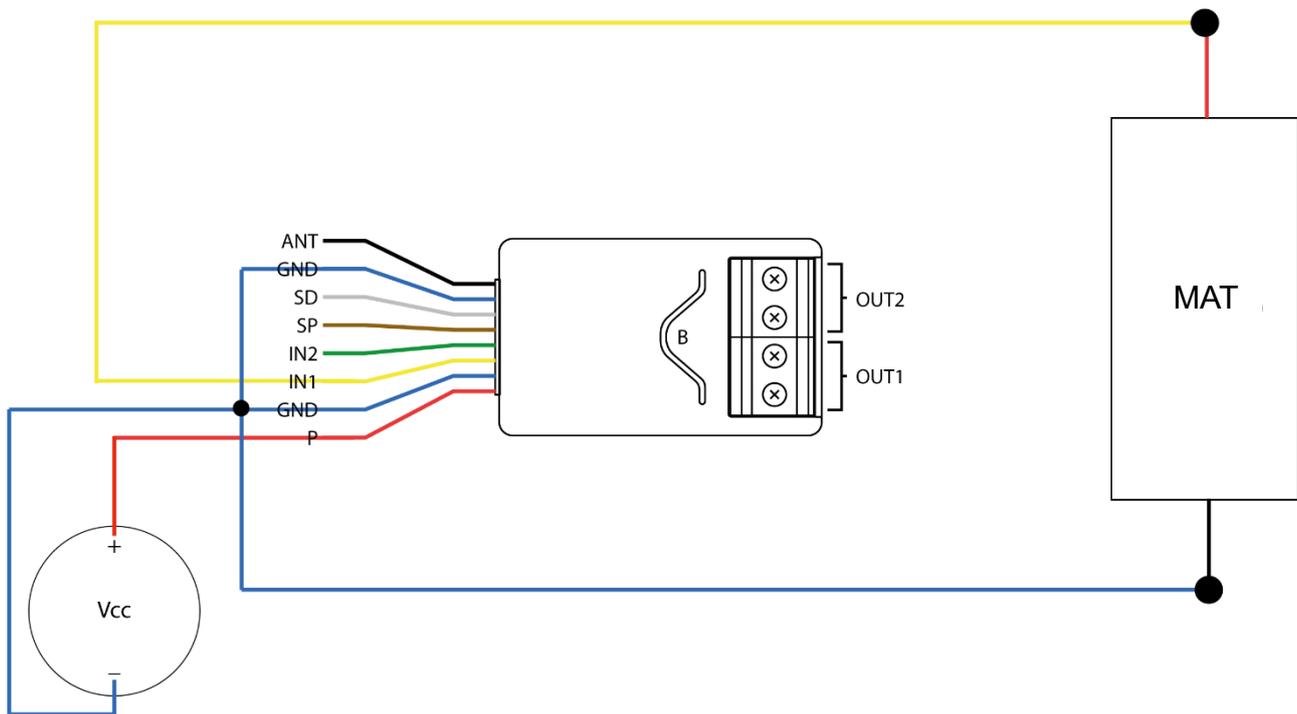

---

**Note:** The PVC mat device with N/A and N/C output must necessarily be connected to the sensor for N/A and N/C contacts (Art. 01335-1362-00 sold separately and can be purchased on the site [www.ecodhome.com](http://www.ecodhome.com)) for proper operation. For more information about the article 01335-1362-00 consult the manual on the site [www.myvirtuosohome.com/downloads](http://www.myvirtuosohome.com/downloads)

The wiring diagram for the correct commissioning of the PVC mat is reported below.

### Inclusion

The PVC mat device with N/A and N/C output cannot be directly included within a Z-Wave network. For inclusion within the Z-Wave protocol it is necessary the aid of the sensor for N/A and N/C contacts (Art. 01335-1362-00).

Before starting the sensor inclusion procedure for N/A and N/C contacts (Art. 01335-1362-00) in a Z-Wave network verify that it is turned on, and then make sure that the MyVirtuoso Home gateway is in include mode (refer to the relevant manual available on the site [www.myvirtuosohome.com/downloads](http://www.myvirtuosohome.com/downloads)).

For the sensor inclusion procedure for N/A and N/C contacts (Art. 01335-1362-00) refer to the relevant manual available on the site [www.myvirtuosohome.com/downloads](http://www.myvirtuosohome.com/downloads).

After you have successfully included the device, follow the steps below for configuring the PVC bed mat with N/A and N/C output.

## Manuale e specifiche tecniche

### Configuration

---

After successfully completing the gateway inclusion procedure on the MyVirtuoso Home App in the devices section, the "Universal Sensor" device will appear at which point you need to press on it and then the following screen will appear

Click on the "Pressure sensor" option to configure the MAT for PVC beds with N/A and N/C output

Finally, after completing the procedure, the universal sensor will detect when the mat is in ON or OFF mode, that is, whether or not you are applying pressure.

### Exclusion

---

For the exclusion procedure refer to the MyVirtuoso Home gateway manual and the N/A and N/C contact sensor (Art. 01335-1362-00) available on the site [www.myvirtuosohome.com/downloads](http://www.myvirtuosohome.com/downloads).

### Reset

---

For sensor reset procedure for N/A and N/C contacts (Art. 01335-1362-00) refer to the relevant manual available on the site [www.myvirtuosohome.com/downloads](http://www.myvirtuosohome.com/downloads)

### **Disposal**

---

Do not dispose of electrical appliances in mixed urban waste, use separate collection services. Contact the local council for information about available collection systems. If electrical appliances are disposed of in landfills or in inappropriate places, hazardous substances can escape into groundwater and enter the food chain, damaging health and well-being. When replacing old appliances with new ones, the retailer is legally obliged to accept the old appliance for free disposal.
